OBJECTIVE

I am looking for an internship opportunity as an entry-level software developer to sharpen my skills and learn more about industry standard technologies through real-world experience.

EXPERIENCE

DESIGN TECHNICIAN – ENTRUST SOLUTIONS GROUP

March 2022 to Present – Warrenville, IL

- Utilize design software (TED/CEGIS) to create drafting prints of overhead distribution projects
- Perform site visits to coordinate on projects with work crews
- Collaborate with engineers and other designers to refine designs
- Ensure designs comply with industry standards, regulations, and client requirements
- Manage projects using business software (Asset Suite) to keep track of billable hours, material costs and material requests

OUTSIDE YARD / RECEIVING - MENARDS

March 2021 to March 2022 – Batavia, IL

- Assisted guests with locating materials and items throughout the store and lumber yard
- Operated forklifts and other equipment to move and stack materials
- Assisted in loading and unloading trucks for shipments and deliveries
- Picked and packed guest orders accurately and efficiently
- Communicated effectively with supervisors and team members
